DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
2. Applicant's arguments filed 8/25/08 regarding the Office Action (2/20/08) are persuasive. Specifically, Applicant argues that the Office Action's motivation would not lead someone skilled in the art to modify the partition walls of Maruko to include a heat insulating section because such motivation (protecting the reforming catalyst from overheating) ignores the fact that both sections (51 and 52) both contain reforming catalyst. In other words, the overheating of the reforming catalyst would not be a problem in Maruko because the oxidation catalyst is mixed in with the reforming catalyst and one would not be motivated to protect two separate reforming catalyst beds from each other. As such, the prior art neither teaches nor suggests a reformer having partition walls which have an insulating section and a heat conducting section wherein the insulating section is in contact with a mixed catalyst bed of reforming catalyst and oxidation catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW J. MERKLING whose telephone number is (571)272-9813. The examiner can normally be reached on M-F 8:30-4:30.
